Dear Mr. Stasiuk:

The decisions that need to be made over the course of the next several months will not be easy ones. After having spent the last number of weeks and a good part of the transition period understanding the dimensions of the fiscal situation we face in the state, I recently presented my Budget Message to the Legislature outlining my plans for meeting our fiscal obligations through 1992 and ways in which this government can provide a sound financial future for this state.

I would like the opportunity to share some of these thoughts with you and would be pleased if you could join me for lunch at Drumthwacket on Tuesday, March 27 at 12 noon.

Please call Emma Byrne at 609-292-8956 if you think you might have time for lunch on the 27th. I look forward to seeing you then.

Sincerely,

Jim Florio
Governor
