

Thursday July 15, 1993

TO: Rick Wright

FROM: Laura Sanders *LS*

I am scheduled to spend tomorrow morning in meetings regarding environmental issues in the Corridor. At 2 p.m., there is a meeting with another potential developer (Guyco).

To knock off a few small items:

[Terrorist Legislation/Port Authority Security. You had asked about scheduling the signing of the first on the same day as the latter. The AG's Office says they are waiting for you to schedule the security meeting. Is there a holdup, or should I talk to Tina and Jamie about picking a day to do the two?]

Priority List: Chuck Richmond from DCA called to mention that he is assembling an application for an empowerment zone for Newark. DCA has been scrutinizing Census data to find appropriate tracts, has met with Human Services and Health on several occasions, and has been pushing Newark for a site. (I will send Ron a note about it). }

Convention Center Food Service: Dennis Robinson is apparently having trouble assembling the RFP for a generic designer of the kitchen. He is thinking of trying to extend the contract for the firm that was originally retained to design the rough outlines. The real issue, though, is that Dennis doesn't have the time to write the RFP and he doesn't trust anybody else at the SEA to do it. He would trust Lou Thurston, however, so I would like to be able to officially extend Lou's services. Sam would not object.
